

# F4 Acids reacting with metals and with carbonates

(page 2)

b Look at the diagrams about testing for carbonates.

Cut out these labels and add them with lines to the right places on the diagrams:

carbon dioxide  
bubbling into lime  
water

lime water  
going cloudy

bubbles of  
carbon dioxide

small lumps of  
marble  
(a carbonate)

acid

pipette collecting  
carbon dioxide gas
